INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/AU2003/001518

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Statement

Novelty (N)	Claims 1-14	YES
	Claims	NO
Inventive step (IS)	Claims 1-14	YES
	Claims	NO
Industrial applicability (IA)	Claims 1-14	YES
	Claims	NO

Citations and explanations (Rule 70.7)

The following documents identified in the International Search Report have been considered for the purposes of this report:

D1 AU 200066674 (Trimec Technology)

Novelty (N)

No document discloses a latching strike with a solenoid operated detent as defined in the claims. The closest citation, D1 describes a detent which may be manually set to be stable in either the locking or unlocking position but which is not "bistable" or displaceable from a stable locking position to a stable unlocking position. Therefore all of the claims are novel.

Inventive Step (IS)

The claimed invention is not obvious in the light of any of the cited documents nor is it disclosed in any obvious combination of them. It is also considered that it would not be obvious to a person skilled in the art in the light of common general knowledge either by itself or in combination with any of these documents.
